3F TECHNOLOGIES (Pvt) Ltd.

Micro Flour 2016

Introduction

Micro Flour is the only software for Flour Mills in Pakistan that can manage mill's Accounts, Stocks, Sales, Purchase and Production. Micro Flour is a highly customizable software, through which you can create your own unlimited number of Commodities (Products), Processes, Bag types or Bag classes, unlimited PR Centers and many more, but don't worry if you have no idea that how to operate a software you'll not feel any difficulty to work in it because we have tried to make it easier for a simple user.
